EDUCATION

Indian Institute of Management Visakhapatnam Mar 2025 – Mar 2027
Post-Graduate Program in Management (PGPMCI) | Product Strategy, Platform Ecosystems, Analytics

IIITDM Kurnool (Institute of National Importance) Nov 2022 – Apr 2026
B.Tech, Computer Science and Engineering

EXPERIENCE

Research Intern — Classical Epistemology & Formal Verification (IIITDM Kurnool) Jan 2026 – Jul 2026
Kurnool, India

- Translated formal Indian dialectical logic (*Nyaya Shastra*) into structured inference rules for automated verification pipelines, mapping epistemic soundness checks onto deterministic validation workflows.
- Modeled out-of-distribution failure modes and bounded reliability thresholds across structured algorithms, informing edge AI hallucination guardrails.

Data Science & Technical Product Intern — Meraqui Ventures Pvt. Ltd. (karam.ai) Apr 2025 – Jul 2025
Remote / Pune, India

- Owned discovery, PRD specs, and launch metrics for an AI candidate-matching engine with engineering teams, lifting matching precision by **15%** via feature engineering and LLM fine-tuning.
- Shadowed recruiters to replace brittle chat flows with deterministic REST API and webhook ERP syncs, cutting manual entry by **15%** (**15+ hrs/wk** saved) and data errors by **12–15%**.
- Delivered schema-validated JSON-to-XML ETL pipelines, automated API test harnesses, and developer onboarding docs, standardizing external client ERP rollouts.

Development Intern (Data Systems & Infrastructure) — Treacle Technologies Jun 2024 – Aug 2024
Incubated at SIIC, IIT Kanpur | Remote

- Engineered a real-time **Kafka** streaming pipeline across Linux and Windows VMs processing **100k+ logs/day**, building a custom web dashboard to surface live attack patterns.
- Integrated **Wazuh**, **Elasticsearch**, and dynamic **Grafana** observability dashboards with file-access alerting, slashing anomaly and incident detection latency by **40%**.
- Automated cross-platform infrastructure monitoring and incident alert dispatch via Python/Bash scripts and a hardened Postfix/Dovecot mail service.

PRODUCT CASE STUDIES & AI SYSTEMS

- **Hymba-1.5B-Eigen-Hybrid-4bit** (Hugging Face ↗): Built a selective FP16/4-bit CUDA quantization pipeline for NVIDIA's Mamba/MoE SSM, cutting VRAM by **65%** (**2.91 GB → 1.01 GB**) with **<1%** perplexity loss (6.43 WikiText-2).
- **Edge VLM Conformal Safety Research** (Case Study ↗): Designed a density-drift detector (*ppDRE*) and GPU-student/CPU-teacher cascade reaching **94.2%** defect precision and **∼60%** token cost savings (IEEE peer review).
- **OpenAI Data Agent & Notion Agents** (OpenAI ↗ | Notion ↗): Audited OpenAI's 6-tier context pipeline (**70k** datasets, **600 PB**, **17×** speedup) and Notion's **5/10/20** credit router to scope P0 budget envelopes (**$10/1k**).
- **Comet AI Search & Lending Funnels** (Comet ↗ | Lending ↗): Scoped persistent memory to cut PDP friction (**Finder-assisted add-to-cart** KPI) and diagnosed KreditBee KYC OCR vs. PhonePe trust leaks.

ROLES & RESPONSIBILITY

- **Student Representative — CPAC, IIM Visakhapatnam** Sep 2026 – Present
  Serve as liaison between PGPMCI Batch 2, IIMV leadership, and The Career Company (TCC) to coordinate cohort career readiness, stakeholder feedback loops, and placement execution.
- **Co-Speaker & ML Mentor — Google Developer Club (GDC), IIITDM Kurnool** 2024 – 2025
  Co-delivered technical sessions progressing cohorts from *Intro to Machine Learning* through intermediate supervised and unsupervised modeling, feature engineering, evaluation metrics, and Python pipelines.
- **Event Management Lead — Solasta 2025 (Annual Techno-Cultural Fest, IIITDM Kurnool)** 2025
  Directed event operations, scheduling, and cross-functional team coordination for **150+ participants and organizers**, ensuring seamless multi-track technical and cultural execution.

SKILLS, CERTIFICATIONS & HONORS

Product: Product Discovery, Problem Framing, PRDs, Funnel & Friction Analysis, Prioritization (RICE), North Star Metrics, A/B Experimentation, SaaS Unit Economics, Stakeholder Management

AI & Engineering: LLM Evals (Ragas, Recall@K), RAG, Model Routing, Quantization, Python, SQL, REST APIs, FastAPI, Kafka, Docker, Elasticsearch, Grafana, PostgreSQL, FAISS, PyTorch, Figma

Certifications & Honors: Supervised ML (Stanford Online) ↗ | Unsupervised Learning, Recommenders & RL (Stanford Online) ↗ | Oracle Cloud GenAI Certified (92.5%) | 2nd Place, GDG Hackathon | 2nd Place, DataWorks Hackathon
